Paths

Below, names of the paths named after different doctors and psychologists connected to Vejlefjord in the tuberculosis sanatorium days

Bernhard Bangshøj Mr. Bang, Danish veterinary, the first using tuberculin for cattle.

Bodintonsvej Mr. Bodinton, Doctor, wrote in 1840 on the treatment of lung sickness through nutritional food and movements in clean and fresh air.

Bræmers Plads Mr. Bræmer, Chief psychologist. He started in 1985 with rehabilitation of brain-damaged at Vejlefjord. Died in July 1990.

Dettweilersvej Mr. Dettweiler, Physician at the Brehmers Sanatorium in Göbersdorf, Germany.

Evaldsbakke Beautiful vantage point, 82 meters above sea level.

Farimagsvej Paths with slight increases for the weak patients.

Finsensvej Mr. Finsen, Danish professor. He received the Nobel Prize for proving the value of light beams as a medicine in 1903. Founder of the Finsen Institute.

Gravesensvej Mr. Gravesen, Chief physician at Vejlefjord from 1923 to 1944.

H.C. Jacobæusvej Mr. Jacobæus, Swedish doctor.

Laennecsvej Mr. Laennec, French doctor.

MacCormaksvej MacCormak, Irish doctor.

P. Carl Petersensvej Mr. Petersen, Merchant. He founded a large scholarship for treatment of and research into tuberculosis. He himself was cured in Vejlefjord.

Reiszvej Mr. Reisz, Danish professor. He took the first initiative to set up a tuberculosis sanatorium in Denmark.

Robert Kochsvej Mr. Koch discovered tuberculin in 1890.

Saugmansvej **Mr. Saugman established Vejle Fjord Sanatorium and worked as Chief physician on site until his death in 1923.**

Sneglebakken Scientific landscaped path to the top of a hill. When patients were able to walk to the top of this hill, they should be cured.

Villemins Høj Mr. Villemin, French doctor who proved that tuberculosis was contagious.

Williamsvej Mr. Williams, English doctor, specialist in tuberculosis.

HOTEL VEJLEFJORD

Point of Interest

1. **Grandmothers bridge** The original bridge was a gift from a patient. The bridge was renovated in 2012 with grants from Real Dania.
2. **Fire places** Fire places.
3. **The Dove Tree** Very rare tree that blooms in May & June. The leaves resemble white doves or handkerchiefs. Also known as “the handkerchief tree”.
4. **The Anniversary Oak** Dead oak tree which stands as a memorial. The tree was planted to mark the 40th anniversary of the “Skydeselskab”.
5. **Kongens Nytorv** A peaceful counterpart to “Kongens Nytorv” in Copenhagen. It is characterized by a white wooden horse.
6. **The King Beech** Beech where the strain is 18 meters before first branch.
7. **The-Kiss-Me-Now-Cottage** Old hunting lodge. According to history the young patients met here for secret rendezvous. Rebuilt in 2012 with grants from Real Dania.
8. **Monument stones** 4 stones with history and key dates
9. **The Mask Tree** Ceramic masks as the brain damaged patients produced as part of their rehabilitation.
10. **The Source** The original drinking water supply at Vejlefjord.
11. **The Tulip Tree** Blooms in midsummer with special and very beautiful yellow/green tulip-like flowers.
12. **The Forest Tower** From November 2001.
13. **Burial Place** Mr. Saugman, founder of Vejlefjord, and his wife Augusta are buried here.
14. **Lighthouse** Build in 1904 and was used until 1968. There is free access throughout the year. It is 14 meters high. .
15. **The Winter Heart** Art project which forms a network of lines across the globe. See more at www.winterheart.dk
16. **Bell tower** Bell, which were given by patients and staff. The bell rings every day at 08:00 and 16:00
17. **Information board** Information board about World War 2.
18. **Training course** Area of training modules, may be used by all.
19. **Therapy garden** Used by the Vejlefjord Rehabilitation center as part of the rehabilitation.
