Hotel Vejlefjord is a wonderful place to spend a few relaxing days on a Spa Stay.

Vejlefjord was founded as Denmark's first tuberculosis sanatorium by Dr. Christian Saugman in 1900 with a focus on good food, tranquility, room for contemplation, exercise, bathing and fresh air.

Even today, the hotel's many Spa guests continue to benefit from the enjoyment of these basic principles, which over time, have been renewed and refined with deference to history.

As soon as you enter the main building there is an immediate sense of history and character with a welcoming, calm atmosphere that makes our guests feel instantly relaxed and at home.

A truly unique gem is the hotel's Spa and Wellness Centre. The Thermal Baths and Thalasso Spa is a treat for both body and mind and choosing from a range of exquisite spa treatments will only add to the luxurious element of your stay.

With stunning views of the fjord, park and forest and more than 20 km of marked footpaths and tracks you can exercise, take a mindful walk or simply rest on the benches and enjoy the tranquil, natural environment.
